

NexGen

Microfiber Systems

For Clean, Healthy Facilities

The Next Generation in Microfiber

NexGen Microfiber is a high performance cleaning material made from a mix of polyester and polyamide. A microfiber thread is 1/100th the size of a human hair. Each microfiber thread is split and has small hooks that grab dirt and hold it during the cleaning process. NexGen Microfiber is very absorbent and will hold 10 times its weight in water, and will last 10 times longer than cotton products. Microfiber products are environmentally friendly as they require less chemical cleaner and water than traditional mops and cloths. We offer complete cleaning systems for healthcare, education and industry.

- NexGen Microfiber meets JCAHO Environment of Care Standards 1.3, 2.3, 4.0.
- NexGen Microfiber recommended Best Practice by EPA for Health Care Facilities.

NexGen Pretreat Cleaning Systems

- Offers a “no-touch” solution for securely attaching and removing mops after use.
- Fights cross-contamination by using a single, clean mop and solution for each average sized patient room, or classroom 400-500 sq. ft.
- Reduces chemical usage by 75%.
- Significantly reduces water consumption. 1.5 gallons of cleaning solution will clean 8,000–10,000 sq. ft.
- Place mop pads in orange bin, add cleaning solution, set for 10 minutes, and you’re ready to clean – it’s that easy!
- Unique design allows for cleaning of floors and surfaces, as well as sides, edges, and corners.
- For use with the PK (Pocket-Style) Microfiber Pads

NexGen Pretreat Mix Chart:

No. of Mops	Cleaning Solution
10 Mops	0.75 gallons (3 Liters)
15 Mops	1.0 gallons (4 Liters)
20 Mops	1.30 gallons (5 Liters)
25 Mops	1.60 gallons (6 Liters)

Slip-n-Go: “No-Touch” Solution

PK Pocket Microfiber Mop Pads & Equipment

Constructed of durable, uniquely designed fibers that can stand up to tough jobs and repeat laundering, NexGen PK Pocket Mop Pads are excellent for healthcare and educational facilities. Giving you the ability to clean quickly and correctly, while still offering you quality control, and peace of mind.

Color code your mops by task, area, floor, shift, building or crew.
White mop pads recommended for finish application.

NexGen TB Divided Bucket Cleaning Systems

The NexGen TB Divided Bucket is split into two 4 gallon (16 quarts) compartments for holding cleaning solution and dirty rinse water. Fill up to 3 gallons of cleaning solution in the front, and 1 gallon of clean water in the rear.

- Designed for use with the TB (Tab Style) mops and frame.
- Reduces the spread of dirty soil from area to area.
- Significantly reduces water consumption by reducing fill and empty cycles.
- Separates cleaning solution from dirty rinse water.
- Longer life than conventional mops.
- For use where conventional mop and bucket systems are in place.
- Improved ergonomics over conventional mops - lighter in weight, less strain, easier to use.
