Specifications are subject to change without notice.

These budget-friendly upright vacuums are a reliable choice for general vacuuming. Heavy duty long-life 7-amp motors provide all of the power and pickup for daily use. The units are designed for dependability, ease of use, and low cost serviceability. Both units feature a steel, dual row brush roller for extended reliability; a long 50 foot power cord for improved user productivity, and six carpet height adjustments to accommodate low-pile commercial carpet to more plush carpet.

The lifetime impeller fan constructed of ultra-durable plastic for extended reliability and reduced cost of ownership is available on both units. If the impeller fan breaks, it is covered under the warranty. A clear fan cover provides visibility to any object that may be blocking the vacuum intake.

The models are excellent for building service contractors, hotels, education, food service, and government facilities.

Aluminum Brush Roll for long service life

Clear fan cover provides visibility to any blockage
