

# CLEAR LEMON

## DISINFECTANT, VIRUCIDE & CLEANER

### DATA SHEET

#### Product Description:

This disinfectant has a pleasing lemon fragrance and makes a bright, clear yellow solution when mixed with water. DO not mix with soap or other detergents.

#### Features:

- Cleans, disinfects and deodorizes any surface not affected by water such as doors, walls, table tops and toilet bowls.
- May be used to spray in garbage cans, restrooms, garbage storage areas or any other areas prone to odor caused by microorganisms.

**Directions:** For use on pre-cleaned, hard, inanimate surfaces. For heavy soil or organic matter, a pre-cleaning step is required. Rinse with clear water. Apply disinfectant solution of 2oz per gallon of water with cloth or mop to toilets, restroom floors, shower stalls, diaper pails and garbage cans. Wet all surfaces thoroughly. Use 4oz per gallon of water for sick rooms, hospitals or clinics. Keep surfaces wet for at least 10 minutes. Prepare a fresh solution daily, or when used solution becomes visibly dirty. This product is effective against the following organisms: Pseudomonas setuginosa Staphylococcus aureus, Salmonella choleraesuis and Human immunodeficiency virus, type 1. This product is not to be used as a terminal sterilant/high level disinfectant on any surface or instruments that (1) is introduced directly into the human body, either into or in contact with the bloodstream or normal sterile areas of the body, or (2) contacts intact mucous membranes but which does not ordinarily penetrate the blood barrier or otherwise enter normally sterile areas of the body. This product may be used to pre-clean or decontaminate critical or semi-critical medical devices prior to sterilization or high level disinfections. \*KILLS HIV ON PRECLEANED ENVIRONMENTAL SURFACES/OBJECTS PREVIOUSLY SOILED WITH BLOOD/BODY FLUIDS in health care settings or other settings in which there is an expected likelihood of soiling of inanimate surfaces/objects likely to be soiled with blood or body fluids can be associated with the potential for transmissions of human immunodeficiency virus. Type 1 (HIV-1) (associated with AIDS). SPECIAL INSTRUCTIONS FOR CLEANING AND CONTAMINATION AGAINST HIV OF SURFACE/OBJECTS SOILED WITH BLOOD/BODY FLUIDS PERSONAL PROTECTION: Cleanup should always be done wearing protective latex rubber gloves, gowns, masks and eye protection. CLEANING PROCEDURES: Blood and other body fluids must be thoroughly cleaned from surfaces and objects before application of disinfectant. DISPOSAL OF INFECTIOUS MATERIALS: Blood and other body fluids should be autoclaved and disposed of according to federal, state and local regulations for infectious waste disposal. CONTACT TIME: Effective against HIV-2 (AIDS Virus) on hard, nonporous surfaces in the presence of a moderate amount of organic soil (5% blood serum) when diluted 1:32. Surface must remain wet for 10 minutes at room temperature (20-25°C)

#### Specifications:

Specifications:		Available In:	
Color:	Yellow	55 Gallon Pails	Item# 98PLM05
Odor:	Lemon	30 Gallon Pails	Item# 98PLM0G
pH:	10	05 Gallon Pails	Item# 98PLM0Q
Physical State:	Liquid	4X1 Gallon Bottles	Item# 98PLM0G

#### First Aid:

In case of contact, immediately flush eyes or skin with plenty of water for at least 15 minutes. For eyes, call a physician. Remove and wash all contaminated clothing before reuse. If swallowed, drink large quantities of water. Call a physician immediately.

#### Storage:

Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials and food and drink. Use appropriate containment to avoid environmental contamination. Keep container tightly closed and sealed until ready to use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabeled containers. Use appropriate containment to avoid environmental contamination.
