Acid Content	
Biodegradable	Yes
Specific Gravity	0.996
pH	10.8 - 11.8
<b>HMIS Hazard Rating</b>	
Health	
Flammability	0
Reactivity	0
Personal Protection	B

# What the Pros Know

Non-Acid Restroom cleaners are recommended for most washable surfaces including chrome plated fixtures.

The SSS Pleascent Clean System provides a coordinated program for restroom maintenance. The use of the exclusive Pleascent Scent fragrance in a multiple product cleaning-disinfectant-odor counteractant system insures that restrooms give a positive impression.

- Non-acid formula Won't harm delicate surfaces
- Pleasant smelling, powerful deodorant Leaves rooms smelling pleasantly clean
- Hospital use disinfectant Proven germ killing power
- Fungicidal Kills pathogenic fungi
- Mildewstat Inhibits the growth and controls mold and mildew
- Ready to use Convenient, no mixing

A mild, fragrant, foaming non-acid cleaner for most washroom fixtures. This product cleans, disinfects and eliminates unpleasant odors. When used as directed this product provides effective disinfection against Staphylococcus aureus, Salmonella cholerasuis and Pseudomonas aeruginosa, meeting the requirements of hospital use.

It is also effective against Streptococcus pyogenes and virucidal against Herpes Simplex Type 2, HIV-1 (AIDS Virus), and Influenza Type A.

It is fungicidal against Trichophyton mentagrophytes (athlete's foot fungus) and inhibits the growth and controls mold and mildew on hard, nonporous, inanimate surfaces. Tests prove it to be effective as a one step cleaner-disinfectant in the presence of organic soil (5% blood serum).

#### Directions

Wear safety equipment recommended on MSDS, and read all directions and cautions prior to beginning your work. See label for complete directions and use only as directed.

### TO CLEAN AND DISINFECT HARD SURFACES:

Apply by mop, sponge, cloth or spray on hard nonporous surfaces. Allow to remain wet for 10 minutes.

Wipe dry with cloth or sponge or let air dry.

### TO CLEAN AND DISINFECT TOILET **BOWLS AND URINAL:**

Add 4 fluid ounces directly to the water in toilet bowl or urinal. Use bowl mop to cover all surfaces.

Allow disinfectant solution to remain at least 10 minutes. Flush.
