CLEANER FLOORS...GREENER EARTH

Caring for the environment and providing a healthy workplace are demanding tasks that offer unquestionable long term benefits. Determining what is truly "environmentally friendly" or "green" has been a confusing process.

The presence of Triple S EarthCare® seal indicates the product offers significant features that contribute to the preservation and sustainability of a healthy environment. Look for the Triple S EarthCare® seal when you want to make the places where we work, live, learn and play healthier.

EarthCare® Sustainability Characteristics

Manufactured from 100% Recycled Content

The polyester in SSS EarthCare® pads comes from post consumer and industrial recycled waste.

Water-Based Latex Resins

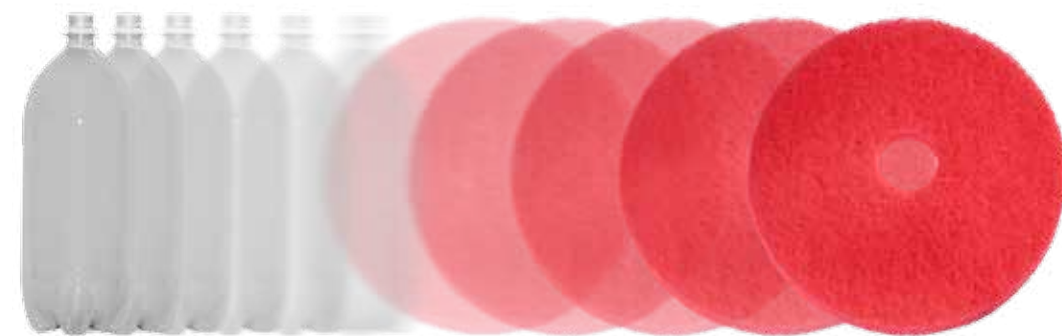

No phenol-formaldehyde resins are used in the binding process.

Recycled Packaging

All of our shipping cartons contain at least 45% recycled materials.

The Proof is in the Performance

For stripping, cleaning, polishing or burnishing, we have the pad. Only top quality materials go into our pads which result in top performance.

The polyester used in our floor pads, hand pads and utility pads comes from recycled plastic. Primary sources of these materials are recycled soda and water bottles.

How many plastic PET bottles does it take to make a case of pads?

38 Water Bottles (12 oz.) = **1 Cs. of 20" Floor Pads** (5 pads)

12 Water Bottles (2 liter) = **1 Cs. of 20" Floor Pads** (5 pads)

As an example, if a company uses as few as 50 cases of 20" floor pads a month this would calculate out to 1,900 12 oz. bottles not going into landfills each month.

STRIPPING

TWISTER™

Diamond Cleaning System

Twister™ is a revolutionary cleaning system consisting of floor pads prepared with billions of microscopic diamonds which clean and polish the floor mechanically instead of using chemicals. Twister™ can be used on the most common floor surfaces such as terrazzo, natural stone, concrete, vinyl and epoxy. Twister™ is the tool that transforms your dull, worn floors into clean, glossy and brightly polished floors. Twister™ has unique advantages that benefit both the cleaning staff and the building owner.

Choosing environmentally compatible cleaning methods benefits everyone. The Twister™ method is a totally environmentally friendly alternative to traditional chemical-based maintenance. At the same time, Twister™ is so effective that the result is a clean and hygienic floor without any need for layers of wax or polish. Choose the eco-friendly concept by using Twister™ for daily floor maintenance.

TWISTER™ WHITE (800 grit)

Step 1 in using the Twister™ Diamond Cleaning System. Twister™ White will remove tiny scratches from the surface and leaves a silky matt, cleaned and well prepared surface for the subsequent Twister™ steps.

Sizes: 5", 8", 10"–21", 24", 27", 27" (¼" hole), 28" and 4.5" x 10" (utility pad) Packed: 2/case

TWISTER™ YELLOW (1,500 grit)

Step 2 in using the Twister™ Diamond Cleaning System. This stage leaves a surface that is well prepared for the final step of the Twister™ method.

Sizes: 5", 8", 10"–21", 24", 27", 27" (¼" hole), 28" and 4.5" x 10" (utility pad) Packed: 2/case

TWISTER™ GREEN (3,000 grit)

Final step in using the Twister™ Diamond Cleaning System and also for daily maintenance of the floor. This step will effectively maintain a high gloss on the surface when used regularly. Twister™ Green is ideal for use on all floor surfaces such as stone, vinyl and linoleum floors. For high-speed polishing of terrazzo and natural stone surfaces. Twister™ Green is also very effective in polishing polish-coated vinyl and linoleum floors.

Sizes: 5", 8", 10"–21", 24", 27", 27" (¼" hole), 28" and 4.5" x 10" (utility pad) Packed: 2/case
