

Jaguar 26R

Micro Rider Scrubber

EcoBoss Dispensing System –
Puts you in charge of the cleaning performance.

Jaguar 26R

Micro Rider Scrubber

Increasing Productivity

The Jaguar 26R is the perfect machine for education, healthcare and other public facilities looking for a compact and highly productive rider scrubber. With a 26 inch cleaning path and a scrub speed of 3.7 MPH, it cleans more area in less time than conventional walk-behind scrubbers.

Easy to Use

Built-in squeegee hanger now makes transporting through tight doorways a breeze. Ease of maintenance is also improved with better access and handling of the squeegee.

Easy Maintenance

The Jaguar 26R has a unique feature that allows the solution tank to be vacuumed out into the recovery tank. This provides a clean water rinse of the dirty water tank, making maintenance easy.

Greater Safety

The controls are mounted inside the steering wheel. This makes changing settings quick and easy. Operating the machine with a quick glance at the controls increases safety for the operator, building occupants and the facility.

More Flexibility

Cleaning tight and congested spaces limit the applications of larger riders. The Jaguar 26R has an overall length of just 53.5 inches and a aisle turning radius of 59 inches which opens up new cleaning opportunities with greater productivity.

Lowering the Cost of Ownership

The EcoBoss onboard detergent system saves money, time and the environment. EcoBoss uses less expensive bulk detergents and ensures every drop is used to clean the floor and not dumped down the drain. Filling the machine is faster when it is filled with pure water and maintenance costs are reduced. Onboard detergent eliminates the need to waste time emptying the solution tank, and fresh chemicals never enter the waste water stream.

Jaguar 26R

Micro Rider Scrubber

Controls are mounted on the steering wheel for safety

Sliding deck eliminates the cost, complexity and required adjustment of side skirts

- 26 inch disc scrub path for high productivity.
- 21 gallon solution and recovery tanks extend the time between dump and refills.
- EcoBoss dispensing system puts you in charge of the cleaning performance.
- Onboard detergent dispensing system saves money, time and the environment.
- Sliding scrub deck eliminates side skirts.
- Quiet mode for cleaning in noise sensitive environments.
- Small compact size for superior maneuverability.
- Low step height, wide seat and open operators compartment makes it easy to use by anyone.
- Machine controls mounted on the steering wheel makes using the machine safe and easy.
- Large recovery tank opening makes cleanout a breeze.
- Debris catch cage helps prevent clogged drains.
- Integrated squeegee hanger makes it easy to transport through narrow doorways.

Specifications

Model	Jaguar 26R
Item #	86015
Scrub Head Type	Dual Disc
Scrub Path	26 in (66 cm)
Capacity	21 gal (80 L)
Maximum Speed	3.7 MPH (6 KM/H)
Maximum Productivity @ 3.7 MPH	42,328 ft ² /hour (3,932 m ² /hour)
Brush Pressure	Setting 1 = 65 lb (30 kg) Setting 2 = 105 lb (48 kg)
Brush Speed	230 RPM
Brush Motor	0.54 hp (400 Watts)
Vacuum Motor	0.56 hp (420 Watts)
Vacuum Airflow	55.3 CFM 26.1 L/Sec
Vacuum Waterlift	57 in (14.2 KPA)
Sound Pressure Level EN ISO 11201: 1995	High Setting = 65 dB(A) Low Setting = 61 dB(A)
Water Flow	0.26/0.8 GPM (1/3 L/min)
Min. Turn-Around Aisle Width	59 in (150 cm)
Maximum Ramp Climbing	16 Degrees
Squeegee Width	35 in (89 cm)
Machine Voltage	24 VDC
Power Source	(4) 6 V Wet Acid Batteries
Battery Charger	24 VDC Onboard
Warranty	2 years parts, 3 years labor*
Dimensions (W/O Squeegee)	L = 53.5 in (136 cm) W = 26.4 in (67 cm) H = 47.3 in (120 cm)
Weight Without Batteries	386 lb (175 kg)
Weight With Batteries	984 lb (446 kg)

Specifications are subject to change without notice.
*Excludes normal wear items.
