

Need portable, easy to use, manual dispensing options?
Do you have space constraints, have multiple sites or clean locations on the go?

New from EnviroX...

SimpleMeasures™

The most portable way to dilute H₂Orange₂® on-site.

Benefits

- The power of H₂Orange₂® in the palm of your hand.
- Convenient, portable dispensing option.
- Easy to measure and easy to use.
- Dilution on the go for multiple site locations or multiple facility cleaning.
- Easy method to fill auto scrubbers.
- The 6 count case provides storage flexibility in closets or cleaning carts.

How It Works

SimpleMeasures™ & secondary bottles are all you need!

Fill the secondary bottle with cold water.

Unscrew the cap on the measuring chamber.

Squeeze the bottle to fill the chamber with the appropriate amount.

Pour the amount you measured out into the secondary bottle.

Measurement Tips

Heavy Duty Red Dilution

Measure 2 ½ ounces = Fill Chamber 2 ½ times
1 Bottle yields approximately 13 quarts
1 Case yields approximately 78 quarts

Light Duty Green Dilution

Measure ¼ ounce = Fill halfway between ½ oz. mark and bottom
1 Bottle yields approximately 128 quarts
1 Case yields approximately 768 quarts

Deliver the Power of H₂Orange₂[®]!
